

DueNest

Never miss what matters.

DueNest Brand Guidelines

World-class brand system for an AI-powered life-admin platform

Documents, deadlines, and renewals in one secure AI workspace.

01. Brand Essence

Item	Guidance
Brand Promise	DueNest gives users peace of mind by keeping important documents, deadlines, subscriptions, renewals, and application packs organized in one secure workspace.
Product Category	AI-powered life-admin platform.
Mission	To help people stay ready for the documents, renewals, and deadlines that matter most.
Vision	To become the trusted personal operating system for life administration.
Core Feeling	Calm control: users should feel prepared, protected, and organized.

02. Positioning

Item	Guidance
Primary Positioning	DueNest helps students, professionals, families, freelancers, and small teams manage essential documents, deadlines, subscriptions, renewals, reminders, and reusable application packs.
Competitive Difference	Unlike finance-first subscription apps, DueNest is broader: it combines document vault, renewal intelligence, application packs, secure sharing, and AI extraction.
Primary Tagline	Documents, deadlines, and renewals in one secure AI workspace.
Short Tagline	Never miss what matters.

03. Logo Concept

Item	Guidance
Symbol Meaning	The DueNest mark combines a secure document, a completion check, and nested arcs. It communicates safety, readiness, and organized deadlines.
Usage Principle	Use the horizontal logo for websites, pitch decks, and GitHub documentation. Use the icon for app, favicon, profile images, and compact UI surfaces.
Clear Space	Keep clear space around the logo equal to at least the height of the icon check circle.
Do Not	Do not stretch, recolor randomly, add shadows to the logo, rotate the icon, or place it on low-contrast backgrounds.

04. Color System

DueNest Color System

A calm, secure, modern palette for documents, deadlines, renewals, and AI assistance.

Item	Guidance
------	----------

Midnight Navy	Primary trust color for headers, dark backgrounds, hero sections, and premium UI.
Nest Teal	Primary action color for CTAs, success states, highlights, and brand emphasis.
Trust Blue	Secondary technology color for links, integrations, and AI workflows.
Due Amber	Reminder/accent color for upcoming dates and medium urgency.
Risk Red	Use only for expired, failed, critical, or dangerous states.

05. Typography

Item	Guidance
Display Font	Use Sora or Space Grotesk for headlines and hero sections.
Body Font	Use Inter for body text, dashboards, forms, and product UI.
Fallback	Use system-ui, sans-serif when custom web fonts are not loaded.
Rule	Keep the typography clean, calm, and readable. Avoid decorative fonts.

06. UI Design Direction

Item	Guidance
Visual Style	Modern SaaS, calm fintech-level trust, clean dashboards, soft cards, strong spacing, rounded panels, and clear data hierarchy.
Component Style	Cards with subtle borders, rounded corners, readable tables, status badges, progress indicators, and calm empty states.
Dashboard Mood	The user should instantly understand what is urgent, what is safe, and what requires action.
Accessibility	Use strong contrast, visible focus states, readable font sizes, semantic headings, and clear form labels.

07. Voice and Copy

Item	Guidance
Tone	Trustworthy, practical, calm, intelligent, and protective.
Avoid	Avoid fear-based pressure, exaggerated AI claims, and vague startup buzzwords.
Good Copy	Your passport expires in 90 days. Prepare renewal documents early.
Bad Copy	AI will revolutionize your life admin forever.

08. Product Pillars

Item	Guidance
Secure Document Vault	Store passports, visas, certificates, contracts, receipts, licenses, insurance, and other essential files.
Deadline Intelligence	Track expiry dates, renewal dates, cancellation windows, recurring payments, and application deadlines.
Application Packs	Generate reusable packs for jobs, scholarships, visas, internships, grants, and compliance needs.
AI Assistance	Extract dates, classify documents, summarize contracts, detect risks, and recommend actions later in the roadmap.

09. Implementation Identity

Item	Guidance
Repository Name	duenest
Architecture	Responsive web app first, PWA second, native mobile later if validated.
Core Stack	Next.js, TypeScript, TailwindCSS, shadcn/ui, Django REST Framework, PostgreSQL, Celery, Redis, S3-compatible storage.
Portfolio Positioning	A SaaS-style AI life-admin platform showing full-stack engineering, security awareness, document processing, background jobs, and product thinking.

10. Asset Inventory

This kit includes SVG and PNG logos, favicons, app icons, social banners, color tokens, CSS variables, Tailwind tokens, messaging files, and project documents. Upload the full ZIP to Drive so the brand is preserved as a single source of truth.

11. Launch Checklist

- Use the same logo, tagline, and color palette across GitHub, README, landing page, dashboard, pitch deck, and social banners.
- Before public launch, verify domain, social handle, app-store, and trademark availability.
- Do not upload real sensitive documents while testing. Use sample or fake documents until security controls are production-ready.
- Build the responsive web app first, then PWA, then mobile app only after validation.
- Keep all brand assets in a single Drive folder and avoid modifying original master files directly.
